Questions and answers:

Q1: Are there more details about the pipelines that need cleaning? Specifically, how many total pipelines are there?

A1: The City's wastewater collection department generally selects different force main pipelines throughout the City's service area to be cleaned each year. These force mains are typically selected based off pressure readings and employee observation. The only force main which is consistently pigged every year is the 8-inch force main along Ocean Shore Boulevard from Sandpiper Ridge Dr to Spanish Waters Dr.

The City's wastewater collection system has approximately 340,000 lineal feet of active force main piping within the City's service area.

The foregoing changes are hereby incorporated into the Bidding Contract Documents for the City of Ormond Beach – Pressure Main Cleaning Services, Bid No. 2025-39 for the City of Ormond Beach.
