Nancy,

My Apologies, I thought I had responded weeks ago. It was in my email drafts and I never sent it. Due to our current work load we will not be able to perform on this project.

Thank you for the opportunity,

Jason Chambers

Jason,

I know in our previous discussion you said that you would check to see if you would be able to provide a quote for us regarding the relocation.

When I didn't hear back from you I assumed you would not be able to commit.

If this is the case would you kindly respond in email stating that.

If you are able to, I would appreciate it.

Best,  
Nancy

Jason,

Thank you for the call earlier.

I called finance about pay application #4; the check will be sent out tomorrow.

I need you to grab the plans from our FTP site because they are too large to email.

I am providing the info to log in to our FTP site below.

Please let me know once you are able to grab the plans.

There is a gravity line shown on UA 2&3 that will most likely not need to be relocated; originally DOT surveyed it as being in conflict, but the engineer's surveyor is saying that it is not.

Therefore, it is my understanding that the gravity line will not need to be relocated in the area between station 1179+20 and 2184+18 which would also mean we would not need the added manhole.

As soon as I get the drafted plans from Chastain Skillman I will get them to you, as they will show all work to be completed.

This email is solely so that you can review the project to see if you are able to complete it within the time window and to provide a quote.

Username: guestutil

Password: Colw2015

Step 1: Copy the link and paste it to an internet browser window (Chrome, Foxfire, Internet Explorer) <ftp://usb.cityoflakewales.com/utility/>

Step 2: enter login credentials when prompted

Step 3: open file labeled "419243-4 US 27 Presidents Dr. to Sr 60"

Step 4: click and drag files to your desktop or right click the file and select save-as, save to desired location

*Once you are able to obtain the file please notify me so that I may remove it from the FTP site.*

Lastly, as discussed we will not need any work quoted for items that say "adjust to finish grade" or "observe and project"; City staff will complete this work.

If you have any questions please give me a call.

Nancy,

**Nancy C. Hernandez**

Dave,

That is much better.  
I am able to read it.

Thank you,

Nancy C. Hernandez
