the requirement for a bid bond and performance and payment bond takes us out of the running due to projects that are currently under bond and would exceed my bonding limits....if they remove that requirement we will be happy to submit a bid...in fact we are just about finished with it....but
thanks,
dave

Dave,

I spoke with the Director; bid and performance bonding will be necessary due to the cost of the project.

I have attached the bid tab form for unit pricing.

Please let me know if you still intend to move forward with providing a quote.

Thank you,
Nancy

nancy:

we are very interested in submitting pricing for your work...let me know when drawings are available and we will get a set and price the work.
thanks,
dave

Dave,

We should be receiving the final set from the engineer this week.
The final plan will include tabulation of quantities.
What are your thoughts regarding the DOT relocation?
Once we receive the final plan we will need a quote for the work.
Per our previous discussion, we do not have time to go out to bid, but we will need to get 3 quotes which will need to go before commission.
I would appreciate your input.

Nancy,

Dave,

Thank you for the call earlier.

As discussed here is the info to login to our FTP site.
Please let me know once you are able to grab the plans.
Bear in mind the conflict we discussed regarding the gravity
line shown on UA 2&3.

After reviewing DOT's final set (which is also included) it
does not show the gravity as a forcemain, but the engineer
is saying that the CAD drawing they received from DOT
does.

It is my understanding that no relocation, forcemain or
gravity, will need to be relocated in this area; between
station 1179+20 and 2184+18 which would also mean we
would not need the added manhole.

As soon as I get the drafted plans from Chastain Skillman I
will get them to you.

Password: Colw2015

Step 1: Copy the link and paste it to an internet browser
window (Chrome, Foxfire, Internet Explorer)

<ftp://usb.cityoflakewales.com/utility/>

Step 2: enter login credentials when prompted

Step 3: open file labeled "419243-4 US 27 Presidents Dr. to
Sr 60"

Step 4: click and drag files to your desktop or right click the
file and select save-as, save to desired location

***Once you are able to obtain the file please notify me
so that I may remove it from the FTP site.***

One last thing, we will not need any work quoted for items that say "adjust to
finish grade" or "observe and project"; City staff will complete this work.

If you have any questions please give me a call.

Nancy,
